

Breast MRI & MAMMOGRAM

BREAST MRI & MAMMOGRAM NOW AVAILABLE AT UCSI HOSPITAL!

Breast MRI

RM1,800*

2D Mammogram

RM155*

3D Mammogram

RM395*

Detect breast cancer and other abnormalities in the breast today. This is important for those with inconclusive ultrasound or mammogram studies (BIRADS 0), suspected ductal carcinoma, or those with implants or silicone or collagen injectables into breast tissue. A breast MRI / Mammogram also helps look for incidental contralateral breast lesion or for those cases that cannot be determined through mammogram.

When to get it:

Between day 5 and 15 after the last day of the menstrual cycle

Who can refer:

- Surgeon
- Oncologist

What to prepare:

- MRI check list
- No mascara (for women)
- Not to use deodorant or powders as it may contain heavy metal substances
